GEM ROCKS 淘金砂

Inspired by the creative mix of European sandstone and gilded stones, it is as if gold sandstone is being sifted in a stream. The natural mineral crystals are fine and delicate like dust, and the gold vein patterns appear gently polished by time, conveying a three-dimensional artistic sense within the space.

源于欧洲砂岩与鎏金石材的混搭创意，仿佛在溪浪中淘洗金砂岩石，天然矿物晶砂干粒细腻如尘，金砂脉络像被时光温柔打磨，承载空间立体艺术感。
