

SURF SAND 浪涌砂

Originating from the encounter between ocean waves and sandy shores—the overlapping textures of depth and shallowness resemble marks repeatedly polished by the tides, with fine granules that glimmer subtly under the light. This texture is crafted through custom fine dry granules, with a sand-like quality that brings undercurrents and poetic charm to the space.

源于海浪与砂岸的相遇——深浅交叠的肌理，似潮汐反复打磨的痕迹，光线下微闪的细砾，是定制细干粒的质感凝造，质感如砂，为空间带来暗涌与诗意。
